AI Literacy Flashcards

QUESTION	ANSWER
Prompt	Instructions or context given to an AI system to guide its response.
AI Hallucination	A confident-sounding AI response that contains false or invented information.
Algorithmic Bias	Systematic unfairness in AI output caused by data, design, or use.
Deepfake	Synthetic image, audio, or video made to imitate a real person.
Source Verification	Checking reliable sources before trusting or sharing AI-generated information.
Human-in-the-Loop	A process where people review, guide, or approve an AI system's work.
